

Folding Arm Awnings by Country. The flexible choice of shade when you need it.

Considering folding arm awnings?

Country offers more options to cut out compromise.

More design options, a greater choice of materials and an expert understanding of how each combination performs give Country a clear edge in Folding Arm Awnings.

We offer Open Style awnings, Semi-Cassette and Full Cassette, too. Each has its own advantages and our experts can match the right design to your home and needs. After a design choice is made, it's time to talk shade – full blackout in lightweight acrylic, or maybe 99 percent mesh for those who love a little light. It's your choice.

Beautifully functional in use yet practically invisible when stowed, Folding Arm Awnings by Country are custom-made to be better.

Firmly fitted – because we understand the leverage forces involved with this style of blind, we use heavy-duty rafter brackets to spread the load along your fascia, and chemical anchors into masonry for lasting strength.

Stainless chains and springs – we use stainless steel in these crucial parts to cut down on the risk of corrosion. Fitted inside the awning arm, they hold the awning skin more taut.

Powder coating – is our choice of finish for awning arms, fixing rails and brackets simply because nothing else looks as good or lasts as well. Colour? Choose any you like; at Country we don't limit you to a standard range.

Crank or motor operation – smaller awnings are best operated with a crank, and our tough 7:1 gearbox makes light work of this. We recommend motorisation and adjustable motion-sensors for larger awnings to best protect your investment should strong winds be a concern.

Choose from three designs. There's no compromise with Country.

At Country, our experience has taught us that each of the three design options we offer has its advantages, depending on your home and your needs. Some suppliers offer only one design, so don't limit yourself – talk with one of our Consultants and choose the Folding Arm Awning design that's perfect for the way you live.

Open Style

Available in four standard colours (white, black, ivory, grey), this version of Folding Arm Awning comes with or without a hood. It's the only design that can be manufactured to a massive 12-metre wide span, with a projection of up to 3.6 metres. That's massive! It also enables you to rotate the arms yourself, angling them downwards or having the awning project almost parallel to the ground.

Semi-Cassette Style

Once again, this design is available in four standard colours (white, black, ivory, grey). Because the leading bar covers the arms, the arms are less noticeable when viewed from the front – a real plus for those who value a neat, streamlined look. Semi-Cassette Styles can be manufactured up to 7 metres wide with a projection of up to 3.6 metres.

Full Cassette Style

This design is available in a standard white colour but if you want more options it's great to know that at Country we can powder coat in any colour you like. The closing action of this design is beautifully smooth and the cassette offers the best possible fabric protection. The awning is completely closed and covered when it's retracted so the look is neat and the result is wonderfully weather-resistant. Country can manufacture this design to a span of 7 metres and a projection of up to 3.6 metres.

The Country Blinds difference

Trusted through time

Three decades in business has earned Country Blinds the trust of home and business owners all over South Australia. Every year, word-of-mouth recommendations from happy Country customers mean our reputation for excellence in products and service just keeps growing.

We make it, we install it.

Country Blinds is a family-owned, factory-direct supplier, manufacturing in our Adelaide Hills factory and installing all over the state with no compromises. That means our own installers take care of every single job. Because we make and install everything ourselves, we stand behind our products and our workmanship.

Value

Real value comes from a business with the ability to create a bespoke product tailored to your own home, perfectly suited to your décor and lifestyle. When it comes to your home, 'off-the-rack' is often just another way of saying 'compromise'. We never compromise on value and there is nothing 'off-the-rack' about our products or quality.

Locally owned and operated

We don't just have showrooms...we have a factory. When you deal with Country you can be confident that every single step, from manufacturing to installation, can be traced back to one place, one name, right here in South Australia. There are no third parties, just first-rate products and service by people who live right here.

There's more!

Thanks for taking the time to understand the many factors that set Country Blinds apart. It's worth noting that we make and install more than Folding Arm Awnings - in fact Country proudly manufactures an enormous range of interior and exterior window furnishings to suit all styles of home.
