

High performance fashion for your windows.

Thermal efficiency and privacy with stunning good looks. The secret is all in the cells.

Honeycomb Blinds are a concept straight out of Europe, where thermal efficiency is a focus in every home and style must be part of the package. Quite simply, for thermal performance in heat or cold, no other window furnishing comes close.

Viewed from the side, each blind comprises a series of honeycomb-shaped cells that stack flat as they are retracted. The cells store pockets of air that deliver amazing insulation.

Honeycomb Blinds by Country are available in a variety of designs that deliver specific benefits:

Mesh – for perfect daytime privacy

Light Filtering – allowing light in but delivering thermal protection

Aluminium Foiled Single Cell Blockout – complete light blockout fabric plus high thermal protection

Both Light Filtering and Blockout designs come in a choice of two cell sizes – 25 millimetre and 38 millimetre – to best fit varying window proportions. Need the ultimate in thermal performance? We also offer a double cell option.

All of our Honeycomb Blinds are available in a variety of textures and patterns to offer home decorators plenty to work with, and something to match every style.

Neat and compact regardless of drop

Smart design and special fabrics mean that the cells in our Honeycomb Blinds stack or compact down on each other ‘accordion style’, taking up just a tiny amount of space even on tall windows with a big drop measurement. Fitting into recesses neatly and delivering clean, uncluttered lines are also Honeycomb specialties.

Top down, bottom up - sill-stacking delivers privacy that lets in the light.

Honeycomb Blinds by Country turn ‘rolling up’ on its head. ‘Top down, bottom up’ operation lets you drop your blinds from the top down, effectively stacking the whole blind on the window sill – or just part of it if you wish. Privacy never looked better.

Depending on how you use your Honeycomb Blinds, those outside your home will only see your ceiling – the bottom section stays private, the top lets in the light. It’s also a great choice where top windows work to let in airflow. There’s simply no other design that can function in this way.

A solution for limited space. A design with unlimited colours.

Honeycomb Blinds by Country work beautifully in applications with limited space, such as on the backs of doors that open against walls. Nothing else fits as flush.

What’s more, every standard cord-operated design has colour-matched head rails, so you never have to settle for ‘near enough’ – your head rail will match your blind colour beautifully.

Remember, there’s more to Country than Honeycomb Blinds. Country is your connection for beautiful, custom-made awnings and so much more.

The Country Blinds difference

Trusted through time

Three decades in business has earned Country Blinds the trust of home and business owners all over South Australia. Every year, word-of-mouth recommendations from happy Country customers mean our reputation for excellence in products and service just keeps growing.

We make it, we install it.

Country Blinds is a family-owned, factory-direct supplier, manufacturing in our Adelaide Hills factory and installing all over the state with no compromises. That means our own installers take care of every single job. Because we make and install everything ourselves, we stand behind our products and our workmanship.

Value

Real value comes from a business with the ability to create a bespoke product tailored to your own home, perfectly suited to your décor and lifestyle. When it comes to your home, 'off-the-rack' is often just another way of saying 'compromise'. We never compromise on value and there is nothing 'off-the-rack' about our products or quality.

Locally owned and operated

We don't just have showrooms...we have a factory. When you deal with Country you can be confident that every single step, from manufacturing to installation, can be traced back to one place, one name, right here in South Australia. There are no third parties, just first-rate products and service by people who live right here.

There's more!

Thanks for taking the time to understand the many factors that set Country Blinds apart. It's worth noting that we make and install more than Honeycomb Blinds – in fact Country proudly manufactures an enormous range of interior and exterior window furnishings to suit all styles of home.
