

We've made a beautiful look easy to live with.

Welcome to our panel – consistent, flexible and interchangeable.

There's no arguing that Panel Glide blinds present a unique designer look. The difference with Panel Glides by Country is that we've made them practical, too.

Country offers between three and 10 panels in a flexible system. While in most applications we recommend four panels per side for an even look, should you need a total of 10 panels for larger windows, we're able to easily split the tracks and offset the panels for even overlap. Should you ever damage a panel, it's no problem – replacement and cleaning is simple because sewn-on Velcro on the back of each panel lets you take them on and off as often as you wish. This same Velcro system provides easy adjustment should you ever find that your panel glides have become slightly crooked. Remove, align, re-attach. It takes just seconds to achieve the perfect look.

Soft fold pockets. A pleasant change in a light breeze.

Panel Glides created by Country come standard with reinforcement battens held in soft fold bottom pockets. If you don't think that sounds like much, you're right - and what a relief! Some lesser designs make use of exposed metal reinforcing bars that repeatedly 'clang' when air movement is present, creating an annoying nuisance.

So beautiful, they must be hiding something.

And they could be. Should you choose Country's premium option of pelmets running over the top of the Panel Glide, the brackets, track and panel tops are neatly concealed. Adding pelmets also increases thermal efficiency. Painted or fabric pelmets even offer you the chance to match or contrast with your panels for a beautiful designer look.

Wand operated. Not that you'd know.

Like most Panel Glide blinds, designs by Country are operated using a wand. Unlike others that are fitted to the front edge for all to see, our wand is tucked discreetly behind the leading blade for a cleaner look.

Only custom design and manufacture can deliver the perfect finish.

Off-the-shelf Panel Glides are always a compromise to some degree. The Country difference is that we measure and make each blind to match your home perfectly. This gives us the freedom to choose whether the front or rear glide slides across first, enhancing your privacy. We explore every option and create a design that is as neat, functional and beautiful as it can be so that you can enjoy all the advantages that Panel Glide blinds have to offer.

The Country Blinds difference

Trusted through time

Three decades in business has earned Country Blinds the trust of home and business owners all over South Australia. Every year, word-of-mouth recommendations from happy Country customers mean our reputation for excellence in products and service just keeps growing.

We make it, we install it.

Country Blinds is a family-owned, factory-direct supplier, manufacturing in our Adelaide Hills factory and installing all over the state with no compromises. That means our own installers take care of every single job. Because we make and install everything ourselves, we stand behind our products and our workmanship.

Value

Real value comes from a business with the ability to create a bespoke product tailored to your own home, perfectly suited to your décor and lifestyle. When it comes to your home, 'off-the-rack' is often just another way of saying 'compromise'. We never compromise on value and there is nothing 'off-the-rack' about our products or quality.

Locally owned and operated

We don't just have showrooms...we have a factory. When you deal with Country you can be confident that every single step, from manufacturing to installation, can be traced back to one place, one name, right here in South Australia. There are no third parties, just first-rate products and service by people who live right here.

There's more!

Thanks for taking the time to understand the many factors that set Country Blinds apart. It's worth noting that we make and install more than Panel Glide Blinds - in fact Country proudly manufactures an enormous range of interior and exterior window furnishings to suit all styles of home.
