

More smart options in a beautiful window treatment.

Country means choice in high-performance Venetians

In a world of materials innovation, not even an established favourite like the Venetian Blind stands still. Country Blinds now offer Venetians in a wide selection of designs and material choices, each offering its own special advantages in functionality, durability and aesthetics.

Aluminium Venetians – light, strong and beautiful

The slats used in Country aluminium Venetians are engineered and manufactured in Europe to an optimum thickness for maximum strength with streamlined looks. 25 and 50 millimetre widths are available and Country offers a huge selection of colours and finishes to complement your home and décor. The colour-coating process used on our blinds can stand up to the environment of any room in your house without chipping, flaking or fading.

Because Country offers a wider range of colours for control components, our cords and ladder braids blend beautifully with the slats as well as the head rail and lower rail.

Our wide catalogue of components provides for quick, simple installation on just about every type of window. We have solutions for even the most challenging situations so that the final look and functionality of blinds in your home are never compromised.

Tuscany Venetians – an elegant way to beat the heat

The Tuscany range by Country is a high-tech slant on Venetians that's rated to cope with temperatures up to 55 degrees Celsius. Needless to say in a country like Australia where summer heat can soar, this is a huge advantage.

The Tuscany blade is a polymer co-extrusion that sandwiches a heat-resistant core within a smooth, strong skin infused with colour. This colour will not fade or degrade. Country offers a broad palette of colours in the Tuscany range, designed by experts to complement and contrast with the hues most popular in contemporary Australian homes.

Timber view. Everything you love about wood, but easier.

There's no arguing about the natural beauty of timber in a home, but most of us associate timber with extra maintenance. Timber View by Country lets you enjoy elegant good looks with great durability and easy, carefree use.

A genuine hardwood product, Timber View Venetians are completely maintenance-free and never need staining or lacquering to protect them from the sun's harsh ultraviolet rays.

Our Timber View Venetians feature a European-designed head rail with fuss-free pull cord operation for tilting and lifting of the blades. This is because while wand operation is fine for aluminium Venetians, it's simply not strong enough to reliably operate timber polymer blinds.

Every Timber View Venetian by Country has an 82 millimetre wide valance, giving complete coverage of the standard sized head rail. This results in a neat, cleanly finished final installation with a pleasing, streamlined look.

The Country Blinds difference

Trusted through time

Three decades in business has earned Country Blinds the trust of home and business owners all over South Australia. Every year, word-of-mouth recommendations from happy Country customers mean our reputation for excellence in products and service just keeps growing.

We make it, we install it.

Country Blinds is a family-owned, factory-direct supplier, manufacturing in our Adelaide Hills factory and installing all over the state with no compromises. That means our own installers take care of every single job. Because we make and install everything ourselves, we stand behind our products and our workmanship.

Value

Real value comes from a business with the ability to create a bespoke product tailored to your own home, perfectly suited to your décor and lifestyle. When it comes to your home, 'off-the-rack' is often just another way of saying 'compromise'. We never compromise on value and there is nothing 'off-the-rack' about our products or quality.

Locally owned and operated

We don't just have showrooms...we have a factory. When you deal with Country you can be confident that every single step, from manufacturing to installation, can be traced back to one place, one name, right here in South Australia. There are no third parties, just first-rate products and service by people who live right here.

There's more!

Thanks for taking the time to understand the many factors that set Country Blinds apart. It's worth noting that we make and install more than Venetian Blinds – in fact Country proudly manufactures an enormous range of interior and exterior window furnishings to suit all styles of home.
