

## What's behind our designs puts us in front.

### Fabric light testing. We look at quality control differently.

At Country, quality control starts even before we begin to make your curtains. Every bolt of fabric that arrives at our factory is inspected over a 'light bed' that's the equivalent of a fabric X-Ray – it instantly shows up any imperfections or fabric flaws so that there's no chance of them making it into a perfect finished curtain in your home.

### Lined for better looks – and year round home comfort

The separate lining on curtains by Country allows us to use a 'blind hemming' technique with no heavy stitch line visible at the front. It's not the easiest method but it's definitely the best – just one more premium touch.

Quality lined curtains also hang better and insulate far more effectively, keeping your home cooler in summer and warmer in winter. Coated curtains, by comparison, hang less well and have far inferior thermal performance.

### Silicone coating – our smooth secret

Old-fashioned flock-backed or rubber based linings deteriorate in sunlight and take on a sticky feeling when washed. The linings we use at Country are silicone-coated; machine washable, mould resistant, water repellent and boasting an appealing, smooth finish.

### The neatness of a single pleat

At Country we use a single pleat design where the curtain lining travels on a separate track. The benefit here is that the sheer curtain behaves as it normally would, rather than adding bulk at the edges where the lining is positioned behind. Single-pleat silicone lining simply looks cleaner, sleeker and neater.

### The right track

Lightweight aluminium tracks place less load on your walls and ceilings and also offer greater versatility and style. We can provide slimline tracks designed to virtually disappear, or feature tracks that really make a statement. What's more, our custom powder coating delivers a perfect colour match for any décor.

### Delivered pressed, and fitted with pride.

Following manufacture in our factory, all curtains are pressed ready for installation so that they look amazing right away, rather than 'well-travelled'. Should you need further pressing onsite, we'll happily steam them for you in-house. We take pride in what we make and how it's fitted.

### Made in South Australia by South Australians.

Curtains by Country are made in our Mount Barker factory by trained seamstresses with vast experience and real pride in what they do. There's no sub-contracting whatsoever; everything we make is manufactured in-house under our own control. Your peace of mind rests on the fact that we take ultimate responsibility for the quality of our products.

## The Country Blinds difference

### Trusted through time

Three decades in business has earned Country Blinds the trust of home and business owners all over South Australia. Every year, word-of-mouth recommendations from happy Country customers mean our reputation for excellence in products and service just keeps growing.

### We make it, we install it.

Country Blinds is a family-owned, factory-direct supplier, manufacturing in our Adelaide Hills factory and installing all over the state with no compromises. That means our own installers take care of every single job. Because we make and install everything ourselves, we stand behind our products and our workmanship.

### Value

Real value comes from a business with the ability to create a bespoke product tailored to your own home, perfectly suited to your décor and lifestyle. When it comes to your home, 'off-the-rack' is often just another way of saying 'compromise'. We never compromise on value and there is nothing 'off-the-rack' about our products or quality.

### Locally owned and operated

We don't just have showrooms...we have a factory. When you deal with Country you can be confident that every single step, from manufacturing to installation, can be traced back to one place, one name, right here in South Australia. There are no third parties, just first-rate products and service by people who live right here.

## There's more!

Thanks for taking the time to understand the many factors that set Country Blinds apart. It's worth noting that we make and install more than Lined Curtains - in fact Country proudly manufactures an enormous range of interior and exterior window furnishings to suit all styles of home.
