

We've made a beautiful look easy to live with.

Cranks. Springs. Welding. Country builds beautiful awnings tough.

While crank and spring operations each have their place in Straight Drop Awnings, every home is different. Talk with us for a recommendation. In windy areas, crank actuation is often best, as springs can allow the blinds to flap in situations where a crank design will hold the fabric taut.

The crank mechanisms used by Country are the finest available, sourced from Europe. Their higher cranking ratio provides faster operation without compromising strength. Raising and lowering is easy and our crank boxes are built for a lifetime of trouble-free use.

Every Straight Drop Awning by Country features a bottom pocket welded by a German Pfaff fabric welder that is, quite simply, the perfect solution. The join is every bit as strong as the rest of the fabric without any need for extra clips or reinforcing.

Our mesh Straight Drop designs neither have nor need any stitching at all. Stitching is often a feature on inferior quality blinds and inevitably breaks down from UV or moisture attack.

The tube that suits you

Straight Drop Awnings by Country are built with top tubes in 50, 63 or 78 millimetre diameters, whichever works best for your window width. Created using galvanized steel, these tubes resist rust and won't flex season after season through rain and shine.

Country and Colorbond. There's more to our hoods.

Our optional hooding in Colorbond steel can match or contrast with your home's exterior colours, while protecting your blinds and concealing the top roll and brackets when not in use. Because we cut our Colorbond hooding to size at the factory using a guillotine, corrosion is never a problem.

Better, brighter clips and fixings in stainless steel

The bottom blind clips we use are quality stainless steel that won't rust, created in a Caribee design that's far simpler than straps and buckles and won't ever break or shear.

The fixings we use are also marine grade 316 stainless steel in a carabiner design. Unlike leash clips, our carabiners are superbly strong and retain perfect functionality for year after year.

Smooth operation in three options

Spring-operated Straight Drop Awnings by Country are supplied with a pull rod that makes lowering even the tallest blinds easy.

The handle on our crank-driven blinds is detachable. Various sizes help make any size of blind easy to operate.

We don't just offer motorized operation, we offer options from wall switch to remote controlled and even voice controlled. If you'd like to operate your awnings using your smartphone or Google Home, we have the experience and solutions to make that happen, too.

The Country Blinds difference

Trusted through time

Three decades in business has earned Country Blinds the trust of home and business owners all over South Australia. Every year, word-of-mouth recommendations from happy Country customers mean our reputation for excellence in products and service just keeps growing.

We make it, we install it.

Country Blinds is a family-owned, factory-direct supplier, manufacturing in our Adelaide Hills factory and installing all over the state with no compromises. That means our own installers take care of every single job. Because we make and install everything ourselves, we stand behind our products and our workmanship.

Value

Real value comes from a business with the ability to create a bespoke product tailored to your own home, perfectly suited to your décor and lifestyle. When it comes to your home, 'off-the-rack' is often just another way of saying 'compromise'. We never compromise on value and there is nothing 'off-the-rack' about our products or quality.

Locally owned and operated

We don't just have showrooms...we have a factory. When you deal with Country you can be confident that every single step, from manufacturing to installation, can be traced back to one place, one name, right here in South Australia. There are no third parties, just first-rate products and service by people who live right here.

There's more!

Thanks for taking the time to understand the many factors that set Country Blinds apart. It's worth noting that we make and install more than Straight Drop Awnings - in fact Country proudly manufactures an enormous range of interior and exterior window furnishings to suit all styles of home.
