

## Tested by time. Refined through experience.

### Imported technology makes Country a weld leader

We've invested hundreds of thousands of dollars into fabric welding machines from Germany and the United States to cut down on the need for stitching on the side hems of our Traditional Blinds. Where sunlight and moisture can break down stitching, our quality welding retains the strength of the parent material.

### Precision manufacturing and unmatched ease of use

Accurate manufacture results in awnings that are functionally superior. The computer-controlled cutting table we use provides precision down to the millimetre.

The spring mechanism that's at the heart of our Traditional Awnings is fast and streamlined, doing away with the need for crank handles. Moving the bottom bar towards the wall or window releases the locking mechanism. The awning can then be raised into the desired position and then swung out to lock.

### Country and Colorbond. Get more life from your awnings.

The Colorbond canopies we fit to our Traditional Awnings protect the fabric when the awnings aren't in use, vastly extending their life. Smart design of the lower awning bar also means that the bottom valance is easily stowed away, keeping them cleaner and out of the weather.

### Better metal choices. Because we're serious about durability.

The side arms standard on Traditional Awnings by Country are made from zinc-finished steel for excellent rust protection. For homes in coastal environments with salty air, we offer stainless steel side arms as the ultimate in durability. Each of these choices is vastly superior to the gold passivated finishes or plastic side arms commonly used by inferior suppliers.

### Country caps it off with Colorbond

The 5-sided ends caps on the bottom bars of our Traditional Awnings are created using quality zinc plated steel. It's neither as cheap or as easy to install as common plastic caps, but they stand up to the strong twisting forces from operating the awnings. Stainless steel end caps are also available for coastal homes.

### Choose the perfect finish

If you love the look of awnings with the traditional scalloped edge, the Country team will be happy to help. We fit this edging using bias binding, the only method that can reliably cope with tight corners. Another great choice is the more modern straight valance, which we heat weld in place to achieve the best possible durability. Ask us to show you the smart visual effect that can be achieved using a straight valance in a solid color. Of course we'll be happy to show you a scalloped valance in striped canvas, too, which is a charming look on older homes. Our consultants will be happy to take the time to show you every available Country option.

## The Country Blinds difference

### Trusted through time

Three decades in business has earned Country Blinds the trust of home and business owners all over South Australia. Every year, word-of-mouth recommendations from happy Country customers mean our reputation for excellence in products and service just keeps growing.

### We make it, we install it.

Country Blinds is a family-owned, factory-direct supplier, manufacturing in our Adelaide Hills factory and installing all over the state with no compromises. That means our own installers take care of every single job. Because we make and install everything ourselves, we stand behind our products and our workmanship.

### Value

Real value comes from a business with the ability to create a bespoke product tailored to your own home, perfectly suited to your décor and lifestyle. When it comes to your home, 'off-the-rack' is often just another way of saying 'compromise'. We never compromise on value and there is nothing 'off-the-rack' about our products or quality.

### Locally owned and operated

We don't just have showrooms...we have a factory. When you deal with Country you can be confident that every single step, from manufacturing to installation, can be traced back to one place, one name, right here in South Australia. There are no third parties, just first-rate products and service by people who live right here.

## There's more!

Thanks for taking the time to understand the many factors that set Country Blinds apart. It's worth noting that we make and install more than Traditional Awnings - in fact Country proudly manufactures an enormous range of interior and exterior window furnishings to suit all styles of home.
